Returned to applicant for correction.....

Corrected application filed.....

Map filed.....

The applicant Southern Pacific Pipe Lines, Inc. (SPPL)
888 South Figueroa St., of Los Angeles,
Street and No. or P.O. Box No. City or Town
Californis, 90017, hereby makeS. application for permission to appropriate the public
State and Zip Code No.

waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.) incorporated 2/18/55 in Delaware,
Nevada qualification 1/9/56

1. The source of the proposed appropriation is underground water
Name of stream, lake, spring, underground or other source

2. The amount of water applied for is 0.22 second-feet
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet.....

3. The water to be used for environmental control
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated.....

(b) Stockwater, state number and kinds of animals to be watered.....

(c) Other use (describe fully under No. 12. "Remarks") extraction of hydrocarbons

(d) Power:

(1) Horsepower developed.....

(2) Point of return of water to stream.....

5. The water is to be diverted from its source at the following point NE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec.9 or at a point from
bears N 60°50'39"W 2567.70 feet from well No. 1 Describe as being within a 40-acre subdivision of public
(M-5), and from which the NW corner of Section 9 bears N 62°06'51" W 2753.27
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated. feet from well No. 2 (M-7), and
from which the NW corner of Section 9 bears N 65°25'45" W 2684.83' from
well No. 3 (M-8), T.19 N., R.20 E, M D B & M

6. Place of use Water mixed with hydrocarbon product will be treated by an
Describe by legal subdivision. If on unsurveyed land, it should be so stated.

oil/water separator in NE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 9, T.19N, T.20 E, and after
treatment will be discharged into storm sewer or sanitary sewer.

7. Use will begin about January 1 and end about December 31, of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) water to be diverted by drilled wells
State manner in which water is to be diverted, i.e. diversion structure, ditches and
with pump and motor.
flumes, drilled well with pump and motor, etc.

9. Estimated cost of works \$ 80,000
10. Estimated time required to construct works Wells completed as described in attached Proof
If well completed, describe works.
of Completion of Work, dated September 25, 1990.
11. Estimated time required to complete the application of water to beneficial use Not Applicable
12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use:
This application supercedes Permit 52475 as this use is for
environmental control and Permit 52475 was issued prior to regulations
allowing environmental water rights. This work is in compliance with
NDEP Order dated 12/4/87. Map for Permit 52475 and Proof of Completion
of Work for Permit 52475 should be used for this application.

Protested _____

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance for pollution control as mandated by orders issued by the Nevada Division of Environmental Protection and subsequent correspondence with said agency. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion. It is also understood that this right must allow for a reasonable lowering of the static water level of permittee's well due to other ground water development in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. The State retains the right to regulate the use of water granted herein at any and all times.

* The right will cease to exist upon termination of clean up activity as determined by the Nevada Division of Environmental Protection.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

(CONTINUED ON PAGE 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.22 cubic feet per second, but not to exceed 159.27 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before _____

Proof of completion of work shall be filed before _____

Application of water to beneficial use shall be filed on or before _____

Proof of the application of water to beneficial use shall be filed on or before _____

Map in support of proof of beneficial use shall be filed on or before _____

Completion of work filed _____

Proof of beneficial use filed _____

Cultural map filed _____

Certificate No. _____ Issued _____

IN TESTIMONY WHEREOF, I, R. MICHAEL TURNIPSEED, P.E.
State Engineer of Nevada, have hereunto set my hand and the seal of my

office, this 11th day of March,

A.D. 1994

[Signature]
State Engineer

(PERMIT TERMS CONTINUED)

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued pursuant to the provisions of NRS 533.4375. Well drillers reports for any well(s) drilled under this permit shall be filed within 30 days from the completion of the well.

Within 30 days after the completion of the project, the permittee shall notify the State Engineer of such completion and all wells shall be plugged and abandoned in accordance with Chapter 534 of the Nevada Administrative Code.
